

GET MORE OUT OF YOUR COMMUNICATIONS WITH **CLOUD PBX SOFTPHONE**

gloCOM Softphone provides extensive functionality to increase your performance while blending communications seamlessly between your PC, mobile and handset. Delivered on GCOMM's secure hosted PBXware, enhance the abilities of your on-site and mobile workforce by putting cloud communications at their fingertips - any time, anywhere.

One App for all your communication

COMMUNICATE SUCCESS

gloCOM Softphone is designed to increase the flexibility of your workforce by providing a feature-rich, easy-to-use cloud communications interface. Use gloCOM to increase usability of your Cloud PBX handsets, or replace handsets entirely. Integrate with your CRM software for seamless management of contacts and customer information.

MADE FOR YOUR BUSINESS

Whether you are a single-person operation, a medium-size business with 2-3 offices or an organisation with many remote or retail locations, you can reap the benefits of cloud communications. Enjoy reduced costs, increased time-to-value and a reliable platform that you can tailor to your business needs.

EASY TO INSTALL, EASY TO USE

The Softphone takes less than 5 minutes to install, the familiar gloCOM interface makes adoption a painless experience. The user guide contains all the information you need to get the most out of your new system, as an administrator or a user.

ABOUT GCOMM

GCOMM provides connectivity, cloud and managed IT services to small, medium and enterprise businesses across Australia. We combine our strong network foundation, engineering capabilities and partnerships with recognised technology vendors to enable our clients to transform their business for the future. Established in 1996 in Queensland, GCOMM has grown to offer a range of technology solutions through a direct and wholesale channel. The company has won several awards and our engineers hold leading industry certifications.
